Brand New Book ***** Print on Demand *****.Excerpt from Hand-Book for Emigrants to Queensland, Australia Reference to the Map attached to this pamphlet will show that the Colony of Queensland has no cause to complain of want of space, whatever other drawbacks she may be credited with. A calculated area of nearly 700,000 square miles, included between latitudes 29 and 8 south, end from the sea to longitude 138 east, provides a large hunting ground for the capitalist seeking investment, and also for the poorly-paid and overcrowded labourers of the old country. Further reference to the map shows that a main range, separating the eastern and western waters, runs parallel with the eastern coast line, and is joined by another range alright angles toils course, dividing streams trending north and south. The eastern streams flow directly to the Pacific, the northern to the Gulf of Carpentaria. A portion of the southern ones find their way to the Darling and S urray, and so to the Southern Ocean through Lake Victoria; while another portion rarely find their way to the sea, but help, during the rainy season, to swell the volume of that system of salt pans in South Australia of which Lake Torrens is the most extensive. Thus Queensland may be divided into three natural districts, namely, the East Coast or Pacific, the Carpentaria, and the Western Interior. East Coast or Pacific District. This country, included between the main range and the Pacific, is of triangular form, having the boundary of New South Wales as its base. It is that to which the largest population has been hitherto attracted, on account of its varied natural resources, - agricultural, pastoral, mining, - and its greater...
